Hi Jason,

Here is the entire respiratory pathology section; John had sent you only the animal version before. I am also sending you the study evaluation tables in case you want to look at them. For the epidemiology, we have figures that convey the results of the study evaluations. WE are in the midst of changing the formats of the figures but the confidence conclusions will not change.

I understand that you intend to review this by July 5<sup>th</sup>.

Thanks, Barbara and Andrew
